

February 1, 2022

To Whom It May Concern:

We would like to advise you of some upcoming changes to our key policies and procedures. Effective March 1, 2022 we will be implementing the following:

- Import Service Charge will be \$160 effective per AWB
- Storage will be charged at \$0.70 per kg per day and will begin 24 hours after a shipment is made available (broken down).
- All electronic payments must be submitted through ePic via WFS. Cargosprint payments through Mercury Air Cargo will no longer be accepted. However, ePic does accept Cargosprint and PayCargo payments
- Cash payments will no longer be accepted.
- All payments must be made via ePic, Credit Card (through ePic) or Check.
- A \$20 check fee will be applied to all checks. All checks need to be made payable to Worldwide Flight Services, Inc.
- This change will not impact settlement of the Traffic Mitigation Fee specifically and customers who have a credit account and assigned PIN will follow the same process to resolve the fee at this time.

Sincerely,

Mercury Air Cargo  
A Worldwide Flight Services company
